As a WebOpss user, you may experience difficulty navigating the program in well-known trouble spots.

**EagleOne's on-site** training will walk you through those problem areas using your specific operations specifications.

# **ABOUT US**

EagleOne Aviation, LLC is a startup based in Oklahoma City. We offer customized training and consulting services to Part 121/135/145 operators.

Cary Wilcox, EagleOne's president, is a former FAA airworthiness inspector with 30 years of experience. He has also served as a contract instructor at the FAA Academy, teaching both Inspectors and aviation professionals.

Cary holds an Airframe and Powerplant certificate, as well as a Private pilot certificate.

# WHAT WE COVER

Addressing mandatory changes to a particular part/paragraph

Obtaining digital signature authority

Preparing a package to submit to the local FSDO/ CMO for a new optional paragraph

Adding and deleting aircraft

Requesting additional navigation paragraphs or areas of operation

Printing multiple paragraphs

Finding current guidance when preparing a package for adding a new paragraph

Change in operator designated personnel

Other WebOpss troubleshooting scenarios as requested

## About the Training

Training is done on-site using the WebOpss software on your computers.

In addition to covering common troubleshooting questions, EagleOne will customize your training session to address any specific issues you are experiencing.

Depending on your automation capabilities, EagleOne may be able to train multiple employees simultaneously.

### **About Our Instructors**

EagleOne's team of instructors has more than 30 years of combined experience teaching WebOpss.

#### How to Book

For pricing information or to book your training session, call (405) 831-2302 or email Cary Wilcox at cwilcox@ eagleoneaviation.com. For more information, visit our website at www.eagleoneaviation.com.
